1. Introduction To Uttoxeter Racecourse

We look forward to welcoming you to Uttoxeter Racecourse

Uttoxeter Racecourse aims to attract a wide range of visitors to all of its race meetings and events. It welcomes all disabled people in society and aims to provide the highest possible levels of access at all times.

Uttoxeter Racecourse has a range of properties and amenities and is continually working towards raising standards in visitor facilities and customer care. In order to achieve this, we constantly review all forms of access and strive to demonstrate best practice in the management of our properties, in the services we provide, and towards the people we employ.

Uttoxeter Racecourse carries out access audits to help identify areas where improvements are required and look at solutions to any issues raised. We not only want to comply with relevant legislation, but also to go further in providing a top-quality experience for all visitors. We will take steps to ensure that disabled people are treated equally, and that 'reasonable adjustments' are made where necessary and possible through sensitive and creative solutions to provide access for all.

Where access to certain properties and amenities is not possible for various reasons alternative services will, wherever possible, assist in overcoming these restrictions. Training in disability awareness is being carried out in key areas within Uttoxeter Racecourse and will be a continuing process over the coming years
